

ENVIROMENTAL POLICY STATEMENT

The management of OUTCO Ltd recognises that its operations can have both direct and indirect impacts on the environment. We are committed to protecting and improving the environment through effective management and the adoption of best practices. Environmental considerations will be integrated into our business decisions, and greener alternatives will be adopted wherever practicable across our operations. To achieve this, management will:

- > Comply fully with all relevant legal requirements, codes of practice, and regulations at international, national, and local levels.
- > Prevent pollution of land, air, and water.
- > Conduct regular audits of the environmental management system to ensure effectiveness.
- > Establish measurable targets for continuous improvement in environmental performance.
- > Eliminate environmental risks where possible through the selection and design of materials, buildings, facilities, equipment, and processes.
- > Ensure that emergency procedures are in place at all locations to address environmental issues.
- > Identify and manage environmental risks and hazards effectively.
- > Allocate adequate resources to manage and mitigate environmental risks arising from work activities
- > Minimise waste and maximise recycling within our waste management framework.
- > Reduce consumption of water, energy, and other natural resources.
- > Engage only contractors who demonstrate due regard for environmental considerations.
- > Provide suitable training to employees and contractors to ensure effective environmental management.
- > Ensure that this policy is communicated to all relevant stakeholders
- > Promote environmentally responsible procurement practices, sourcing materials from sustainable suppliers where practicable.
- > Engage customers, partners, clients, suppliers, and subcontractors in achieving environmental objectives

This Policy will be reviewed and revised as necessary to reflect changes in business activities or legislative requirements.
