

PERIMETER
SOLUTIONS

PART OF THE **OUTCO** GROUP

Gate Automation Engineer

ABOUT PERIMETER AUTOMATION

Perimeter Automation is part of the Perimeter Solutions Group, one of the South East's leading commercial fencing, hoarding, and physical security specialists. We design, install, and maintain high-quality gate automation, access control, CCTV, and integrated security solutions for a wide range of clients, including construction sites, industrial facilities, schools, and high-security environments.

As a growing business, we pride ourselves on delivering exceptional service from installation through to ongoing maintenance and support. Our experienced team is committed to providing innovative, reliable security solutions while maintaining the highest standards of quality, safety, and customer service.

THE ROLE

We are looking for a motivated, detail-oriented and methodical **Gate Automation Engineer** to join us on a permanent basis.

The successful candidate's responsibilities will include:

- Installing automated gates, barriers, bollards and access control systems.
- Servicing, maintaining and repairing gate automation equipment.
- Diagnosing faults and carrying out effective repairs.
- Commissioning new installations and ensuring they meet all safety and compliance standards.
- Providing excellent customer service and building positive relationships with clients.
- Working predominantly across the South East, with occasional overnight stays where required.

ABOUT YOU

To be successful in the role, you are to possess the below knowledge and skills.

Essential:

- **Proven experience installing, servicing and maintaining automated gates and access control systems.**
- **Valid ECS Card.**
- **Strong electrical and mechanical fault-finding skills.**
- **Full UK driving licence.**
- **Ability to work independently and effectively manage your workload.**
- **Positive attitude with a strong commitment to health and safety.**

Desirable:

- **DHF and/or Gate Safe training.**
- **Experience working on commercial, industrial or high-security sites.**
- **Knowledge of gate automation manufacturers and access control systems.**
- **Additional industry qualifications such as IPAF or PASMA.**
- **Strong customer service and communication skills.**
